COMPILATION OF TRAINING PROGRAMS FOR TEACHERS AND YOUTH WORKERS

PROJECT: „EFFECTIVE LEARNING” - 2018-1-LV01-KA201-046968

pistes solidaires

Introduction

Understanding that as we learned in the past, it is no longer effective and meaningful, the concept of lifelong learning, combining all three approaches to learning - formal, non-formal and informal learning, is gradually starting to emerge in schools. European-wide learning approaches are changing, that requires teachers and youth workers to look for innovative learning methods. Likewise, even more schools are using non-formal learning methods that fosters modern organization of the learning process in schools. Therefore, it is important to share how formal and non-formal education can complement each other in order to integrate young people more effectively into the learning process. Similarly, when working with young people, the educators must raise their professional competences in order to be able to provide a modern and effective learning environment.

The main idea of the project “Effective Learning” is to bring together formal and non-formal education to explore different creative learning spaces which will give ownership of learning process to the learners. The aim of project is to provide space and support for cross-sectoral cooperation of professionals in formal and non-formal education on innovation of education in order to create contemporary and successful learning environments for young people.

Effective learning involves three important aspects: environment, content and emotions. One of the task in the project is to share good practice and experience how to use and act more effectively in all these areas in order to help both educators and young people to learn effectively and with pleasure. The primary audience of the project is teachers and youth workers. Secondary - young people who will indirectly "get" and "feel on their skin" new experiences, methods and approaches from teachers and youth workers.

The main project activities were:

1. 4 short-term joint staff training events organized in Bulgaria (Sofia), Romania (Bucharest), France (Pau) and Latvia (Ranka, Gulbenes novads).
2. Each visit had an average of up to 12 – 16 international participants (2 from each partner and Gulbene Municipality council - 4 participants).
3. Developed 16 (3 in Bulgaria and United Kingdom, 4 in France in Latvia, 5 in Romania) 1-2-day training programs for the transfer of knowledges.
4. A total of 20 knowledge transfer or follow-up activities was organized in every partner country after short-term joint staff training event. In total more than 300 participants where in all follow- up activities.
5. Two coordinators` meetings (first transnational meeting in United Kingdom and the second in Gulbene, Latvia) was be organized during a project.
6. Dissemination event in Latvia, Gulbene, organized with participation of project partner's coordinators. 80 participants from Gulbene region educational institutions, youth centres and municipality.

Co-funded by the
Erasmus+ Programme
of the European Union

7. Project results and project publicity is being available to a wider target audience in the media and social networks in Latvia, Romania, UK, France and Bulgaria.

The project was led by Gulbene Municipality Council and involved 7 partner organizations from 5 countries: Point Europa, United Kingdom, Association "A.C.T.O.R." and Scoala Gimnaziala Nr.79, Romania, Association "Know and Can" and 18 comprehensive school "William Gladstone", Bulgaria, Pistes Solidaires and College Pierre Emmanuel, France.

“**Compilation of training programs for teachers and youth workers**” is the project result compiling 1-2-day training programs in the national languages of all partner countries. There was a public call for potential participants of those trainings involving teachers, youth workers, heads of organizations and institutions, local executive etc. Realization time of the training programs - within 2 - 4 months after short-term joint staff training event. From February to October 2019. There were 16 training programs created and delivered in total 20 trainings - knowledge transfer events.

BULGARIA

Program title			
<i>Creative, Art and Non-formal Methods in Education</i>			
Target groups			
Teachers (early child education, primary education, secondary education, vocational education, etc.). educators, youth workers, trainers			
Objectives of the program:			
<ol style="list-style-type: none"> 1. To see the importance of creative learning and creation of interesting and non-standard content and learning materials for ensuring effective learning; 2. To show different non-formal methods that can be applied in class. 			
Program task:			
<ol style="list-style-type: none"> 1. To introduce escape rooms as a method for teaching in different fields; 2. To introduce non-formal educational methods for stimulation of creativity, ice-breaking and warming-up of the groups that we work with; 3. To introduce different manual methods for boosting and stimulation creativity (origami and creation of things made of paper). 			
Planned results. The main expected results include teachers learning new non-standard and non-formal educational methods which can be used with students with different backgrounds. Another important expected result is the teachers to improve their self-confidence in the field of non-formal education and to understand how to apply these methods in their work;			
No	Subject with short annotation	Hours	Implementation forms, methods, test forms and methods
1.	Introduction of the course: aims and objectives	0,5	Introduction, discussion, group work
2.	Warm-up and ice-breaking activities and introduction of the participants	0,5	Group work, non-formal activities, warm-ups, ice-breakers
3.	Discussion of the application of warm-up activities and ice-breakers in class	0,5	Discussion, group work
4.	Introducing manual work: origami, creation of paper roses and things from paper	1,5	Manual work, group work, individual work

5.	Discussion of the usage of manual work with children, reflection of the previous session	1	Discussion, group work
6.	Introducing escape rooms method- telling the participants about the method in short	0,5	Discussion, group work
7.	Showing an escape room to the participants	1	Group work
8.	Creation of escape rooms by the participants	1,5	Group work
9.	Discussion of the application of escape rooms in the teaching process	0,5	Discussion, group work
10.	Reflection and evaluation of the training	0,5	Reflection, evaluation, individual work
	Total	8	

Program title	<i>Non-formal learning environment in a formal modern learning process</i>
Target groups	Preschool, general education school teachers, university professors
Objectives of the program:	<ol style="list-style-type: none"> 1. To update the formal learning environment (content, emotional and physical) for ensuring effective learning; 2. To create a place and support for inter-sectoral cooperation between formal and non-formal education professionals aimed at innovation in education in order to create a modern and successful learning environment for children and young people in their learning process.
Program task:	<ol style="list-style-type: none"> 1. To introduce the various formal and informal learning methods; 2. To synthesize formal and non-formal learning methods during the curriculum, creating conditions for the learning principle – learning

PROJECT: „EFFECTIVE LEARNING” - 2018-1-LV01-KA201-046968

to do;			
3. To introduce the method of learning escape room “THE GOLDEN TOUCH ESCAPE ROOM”.			
Planned results. The theme of the environment (emotional, physical and content) for the effective teaching process has been updated. Popularized learning escape room method.			
No	Subject with short annotation	Hours	Implementation forms, methods, test forms and methods
1.	Get familiar with project goals, partners and upcoming mobility and activities	1	Discussions, reflections
2.	Presentation of the activities organized by the Romanian partners during the training in Bucharest from 3 to 8 February, 2019	1,5	Work in a group, discussions, reflections
3.	Theoretical and practical aspects of the conditions of a non-formal learning environment, basic principles of learning outbreak of the room	1,5	Discussion, group work, reflections
4.	Bucharest Training Product Demonstration – “THE GOLDEN TOUCH ESCAPE ROOM”	2	Group work, individual work, reflections
5.	How to create “ESCAPE ROOM”	2	Individual work, work in group
	Total	8	

Program title
<i>Reciprocal maieutic approach and other non-formal learning methods for students motivation</i>
Target groups
Preschool, general education school teachers
Objectives of the program:
<ol style="list-style-type: none"> 1. To update the formal learning environment (content, emotional and physical) for ensuring effective learning; 2. To implement collaborative learning to increase student motivation and participation.

Program task:

1. To introduce the new informal learning methods;
2. To synthesize formal and non-formal learning methods during the curriculum, creating conditions for the learning principle – learning to do.

Planned results. To demonstrate that establishing a culture of collaboration within the school community can be possible. To bring about change at classroom level through the adoption of an inclusive approach, which fosters interaction, creativity and reciprocal learning between teachers and learners, which will leave a lasting positive impact on the wider school environment.

No	Subject with short annotation	Hours	Implementation forms, methods, test forms and methods
1.	CARMA Toolkit Why are collaborative approaches to learning important for school education?	1	Discussions, reflections
2.	Establishing collaborative practices	1,5	Work in a group, discussions, reflections
3.	Delivering collaborative learning in the classroom	1,5	Work in a group, discussions, reflections
4.	Designing and developing learning outcomes	2	Group work, individual work, reflections
5.	Acknowledgments and resources	2	Individual work, work in group
	Total	8

FRANCE

Program title			
<i>The role of a creative learning environment for ensuring a modern learning process</i>			
Target groups			
Youth workers, project managers			
Objectives of the program:			
<ol style="list-style-type: none"> 1. To experience the methods shared and discovered during the study visit; 2. To encourage participants to get to know each other; 3. To facilitate interactions and experience sharing between participants; 4. To allow participants to have look back at their experiences. 			
Program task:			
<ol style="list-style-type: none"> 1. To introduce the Effective Learning project and the definition of formal and non-formal education; 2. Use and test the puppet method that was used during the visit; 3. Imagine how to apply such a technique in the daily work. 			
Planned results. The participants have discovered a new tool that can be used in their daily work and have understood how to transfer the method to colleagues. They have understood that a non-formal method can be seen in different ways and can be used in different environments.			
No	Subject with short annotation	Hours	Implementation forms, methods, test forms and methods
1	Introduction of Effective Learning	0,5	
2	Presentation of the participants The participants introduce themselves to the group	0,5	Discussions
3	Creation of the puppet Participants create one puppet all together (it can be one per group but not more)	2	Group work
4	Presentation of the puppet Participants agree on puppet name, personality, temperament etc.	1	Group work
5	Where are you from?	2	Individual and collective work

	An imaginary planisphere is delimited by the cardinal points in the room. Participants position themselves according to where they live, where they traveled etc, sharing anecdotes they experienced in that place.		
6	Where is the puppet from? Where lives the puppet? Did the puppet travelled, studied in other place etc.? Participants chose three of these geographical locations. These are the starting points of different puppet stories.	1	Collective work
7	Verbal Evaluation	1	Discussions, reflexions
	Total	8	

Program title	<i>The role of a creative learning environment for ensuring a modern learning process</i>
Target groups	Youth workers, project managers
Objectives of the program:	<ol style="list-style-type: none"> 1. To make the link between methods that were discovered during the study visit and methods that were already used by youth workers; 2. To encourage participants to get to know each other; 3. To facilitate interactions and experience sharing between participants; 4. To allow participants to have look back at their experiences.
Program task:	<ol style="list-style-type: none"> 1. To introduce the Effective Learning project and the definition of formal and non-formal education;

PROJECT: „EFFECTIVE LEARNING” - 2018-1-LV01-KA201-046968

pistes solidaires

2. Use and test the puppet method but also the story mapping;

3. Imagine how to apply such a technique in the daily work.

Planned results. The participants have discovered a new tool that can be used in their daily work and have understood how to transfer the method to colleagues. They have understood that a non-formal method can be seen in different ways and can be used in different environments.

No	Subject with short annotation	Hours	Implementation forms, methods, test forms and methods
1	Introduction of Effective Learning	1	Discussions
2	Puppet Stories Based on puppet stories starting points decided during the first Follow-up activity, the participants tell three stories that happened to the puppet during its life: World Café – Map-exquisite. Three table, three participant on each. Each group has (time depends on the size of the group) to tell and describe anecdotes/steps of a different puppet story. After they have to go to another table and continue to imagine the story of this table etc.	3	Group work
3	Story mapping We have now three different stories. The main character is our puppet. Using story mapping, the participants will create visual content that will be used to tell puppet stories.	3	Group work
4	Verbal Evaluation trough puppet point of view	1	Discussion, collective reflections
	Total	8	

Program title

The role of a creative learning environment for ensuring a modern learning process

Target groups

Youth workers, project managers

Objectives of the program:

1. Practical experimentation of a non-formal method that was presented during the study visit;
2. Participation in an escape game session that was created thanks to the tools discovered during the study visit;
3. Feedback and sharing of the study visit experience.

Program task:

1. Present the project to the participants;
2. Get the participants understand what is meant when we talk about escape games;
3. Make the participants experience the escape game method.

Planned results. The participants have gained knowledge about the Erasmus+ program and about escape games. They have understood that this method can be used in all the subjects that are taught in the schools and that it can be a great occasion to lead transversal projects.

No	Subject with short annotation	Hours	Implementation forms, methods, test forms and methods
1	Presentation of the project, of the KA2 Erasmus+ activities and the partnership between the school and Pistes-Solidaires	1	Discussions
2	Introduction to non-formal education and elaboration of some tools by the participants using some methods discovered during the study visit about the topic of pedagogical escape games at school (quiz, debrief room)	1	Group work
3	Presentation of the work done in sub-groups and feedback	2	Group work
4	Participation in an escape game developed by the	3	Collective activity

LATVIA

Program title			
<i>Use of informal education methods to ensure effective learning in formal education</i>			
Target groups			
General education school teachers, classroom educators, heads and managers of educational institutions, youth workers.			
The objective of the program:			
1. To introduce educators with informal education methods for making the learning process more modern and efficient.			
Program task			
1. To introduce a variety of non-formal education methods suitable for both teaching hours and off-hours work.			
2. Create the right conditions for learning by doing.			
3. Teambuilding of the particular group of teachers.			
4. Create ideas for the adaptation days of pupils.			
Planned results. The importance of incorporating informal education methods in the formal teaching environment has been updated. Many informal education methods are taught to teachers, therefore ensuring their recognition and use by more people, more widely.			
No	Subject with a short annotation	Hours	Implementation forms, methods, test forms and methods
1.	Introducing Ice-breaking activities: “The Compliment Circle”, “The Tree of Wishes”, “Pulsing Words”, “Word Sharing”, “Handshakes”, “Do it the opposite way!”, “Apple, Banana, Orange”, “Numbers and Activities,” “Brain Hemisphere training,” “Cord that Unites” “Laurence”	2,5	Work in a group, individual work
2.	Teambuilding activities: setting up rules for teams according to the conditions provided, creating a command logo, “Box of Properties”, “Skittles”, “M & M”, “My Summer Adventures”, “Dice,” “The Roulette of the Narration” – creating and setting up a	2,5	Work in a group, individual work

	modern fairy tale.
